

# LEWISBURG CHRONICLE & WEST BRANCH FARMER.

## Wit and Humor.

Tobacco!

By Dr. C. M. SAWTEL.

Proprietary! Light! aromatic! great! For now, the best clowns we use— Is styan smoke, and yellow juice, And seeks a home in many a man's White horse—garlic, ginger—hell!

Let him have the sun, discarding weed, Men's men on mortal habis lead; And hold them in despiteous chains, With heat and sun they do their stains! But like the others—garlic, ginger—hell!

Our Prince! Now! with of gain, Have this foul plant to instant Spain! And Santa Croce, with cold, pale veins, And the saint's prayers—White! White! White! White!—the same response, The new world's god—holiness!

From court to court its name went fast, Unlikely by royal countblast; It needed Pope Alfonso's wise decree; And held in tribute, fashion's train, And gave the world a witty stamp!

So called it Triton's hyssop prairies! From St. Peter's, far as Italy, Where the victim, somewhat vague, Is told to eat the gout and plague—but like Triton's!—hans of yours, Its dying victims call for more!

Now has this of man and gold, Begot the new!—and so forth! The new! poor! poor! with foul entrance, Lestamp its impress on the face, And hung the number with delight, And hanged it, and the rest is right!

The old! the bending of the grave; And all the mourners come to crave; And holds just over the morn's lip, We know their remedies a nay, Are seen, festooned with a hue, That's not the hue, nor the hue,

The pale! the fiddly, darning weed, As we grow green in soil or seed, Though long a source to life and health; For in its leaves we find a tea There lurks diarrhea—diarrhea—Death!

—The following is from a grave:

“We'll just cut out this plant to Spain and Portugal in 1850, when St. Peter was embosom, who carried this plant to Catherine de Medici, hence its name.”

In 1850, Santa Croce, returning from his ministrations in Spain and Portugal, carried tobacco to Rome.

“Mother Nature, returning from America, introduced the new!—and so forth!

—(so rapidly spread the impudence that “James the First” wrote a plump against it—called a “Royal Commission”!—and sent to the King of Spain, the Duke of York, the VIII, published a decree of excommunication against all who took snuff in church, and various churchs have been issued to requiring the same to be abstained.

—Referring to the famous Elixir of Panaceus supposed to some to be alcohol.

**TH**AT large and desirable property on the corner of Market and Water Sts., well situated for a residence, for business, or for a residence and place of business.

There is a large BRICK House containing 4 large rooms on the first floor, 6 bedrooms on the second floor, and two large finished rooms on the third. A Kitchen and Washhouse wings, and it has also a large cement Cistern, a Pump and Well of good water, and all the necessary out-buildings.

“Oh Mr. Jipson!” she screamed out, “there's a man under the bed!”

“Is there?” coolly drawled her husband, “well, my dear, I am glad you have found him at last. You have been looking for him these twenty years.”

A PUNCHY REMEDY.—A writer in the London *Lancet* recommends pure lime juice (two to six ounces per diem), as an almost certain cure for acute rheumatism. Hooper, of the Lafayette (Ala.) *Tribune*, says he once had a friend in Montgomery afflicted with the disease who used this compound: Lemon juice, about one tablespoonful; sugar, two dittos; water, *ad libitum*; maraschino, half a wine glass; dash of old Jamaica rum—and swallow. He never got well, though.

“You are no gentleman!” said an angry disputant to his antagonist. “Are you?” quietly asked the other. “Yes, I am,” said “Then I am not,” was the genial reply.

### Farmers, Attention!

#### M' CORMICK'S Reaping and Mowing Machine.

**A** REAPING MACHINE being now almost universally regarded as the most important improvement to the Farmer (and no much less so than the *Plough*), because of the high price of labor at the season of harvest, and the great importance of the work to be done in a short time, he should investigate the principles of different machines and *points of difference* as well as the right of the Manufacturer to sell the same.

The Hussey's Machine is the best and most improved with a steel blade and *rod* combined with a seat or stand for the reaper, so that the scythe is delivered at the side of the machine, and the binding and cutting operations are performed in the most expeditious manner.

It is simple, light, straight, and will cut one hundred to three hundred acres of grain without a second passing, and is unexcelled in the execution of a narrow strip.
